

OUR CLASSIFICATION SYSTEM ACCORDING TO OUR PENNINGTON ANCESTORS

by Bee Holmes

On pages 15-17 in Vol. X-2, I gave a brief history of Pennington Pedigrees and the steps we went through during our ten years. I also explained the slow evolution of our system of grouping according to our oldest ancestor.

In his feature story in X-2, pages 1-12, Dr. Bob Sloan presented his idea that since certain members of these groups had lived in the same area in colonial days and appeared to have migrated together, perhaps they were related and these old ancestors had a common 'older' ancestor!

Developing his theory, Bob placed nearly all of my groups into what he called CLUSTERS. Perhaps you Cousins will now need to return to X-1, p. 5-12 and review his maps and explanation of how certain groups seemed to belong together. He placed nine groups in Cluster A, as follows: I-Ephraim; IV-Richard of PA; VII-Micajah & Benajah; XI-Abel; VI-Levi & Benjamin; XII-Samuel of Ashe Co.; XIII-Timothy; XV-William Thomas; XVI-Simeon. Bob suggested that the first Ephraim of Connecticut and New Jersey might be the progenitor of all of these men!

Cluster B received only three of our groups: III-William of Philadelphia; V-Rev. Charles of PA; and XIV-Edmund of PA. Five groups were placed in Cluster C as follows: II-Robert of Centre Co.; VIII-Abraham, Isaac, Jacob; IX-John of MD; XXI-Delaware settlers; XIX-Richard of W. Va.

Having thus placed 17 of my groups according to where they clustered together geographically, Bob found that four groups remained, each showing no clues that would place them with other groups. These are: X-Thomas of Surry Co., VA; XVII-James of MN; XX-Nathaniel; XVIII-Descendants of Sir Isaac.

Because of this new development in our classification system, I am in this issue using the Clusters A, B and C for placing lineages of cousins. I will continue to use the Roman numerals with the cluster letters, as A-I, A-IV, A-VII, and so on.

////////////////////////////////////

CLUSTER A

I-Ephraim; IV-Richard; VII-Micajah; XI-Abel; VI-Levi; XII-Samuel; III-Timothy; XV-William Thomas; XVI-Simeon

GROUP I - EPHRAIM

(The importance of Ephraim to this whole cluster of groups, is that Sloan has the theory that since these people migrated together so much, it is quite worth considering that these nine groups are descendants of the first EPHRAIM of N.J.)

MARY JANE (PENNINGTON) CASEY

Several branches of the Irish Caseys came to America in early colonial days. One of them settled in Virginia and was a near neighbor and friend of the Randolphs, for whom one of his sons was named, and the name Randolph Casey was continued for several generations. They were prominent in the affairs of State and in the Army.

Mary Jane Casey, cont.

Randolph Casey moved to South Carolina and was a patriot from that state, participating in many of the engagements of the Revolution, notable at Kings Mt. where he served under General Marion.

He married in 1768, Mary Jane Pennington, of Spartansburg, S.C., of the well known Pennington family, descended from Ephraim whose pedigree is clearly traced to the Penningtons of Pennington County, Lancashire, who came over in 1643.

They had seven sons and one daughter, Levi, Isaac, Abraham, Samuel, Randolph, Samuel, and Zadok, who was born March 7, 1796 in GA, whither the family had gone after the Revolution. From there they removed to Smith Co., Tenn. where the father Randolph died in 1813.

Zadok married in 1816, Rachael, daughter of Samuel King of Tennessee, and removed to the Territory of Illinois and built himself a home which he called "Red Bud Hill, " near the present site of Mount Vernon. About this time he was ordained a minister of the M. E. Church.

In the year 1819 Jefferson Co. was formed and he was selected one of the committee to locate the public buildings. In 1822 he was. a representative of Jefferson Co. in the legislature. During this service he was author of the resolution creating a new county, which he called Marion, for his father's old commander, Gen. Marion. In 1826 he was chosen State Senator, holding. the office until 1830, when he was elected Lieutenant-Governor of Illinois. He had acquired a reputation as a presiding officer and successful parliamentarian. He volunteered in 1822 as a private in the Black Hawk and was under Capt. Bowman.' As a member of Dement's Battalion at the battle of Kellog's Grove, was complimented for his coolness and courage, his horse having been shot twice during the engagement.

As you can see my Penningtons intermarried several times - Every time I go over this I stop and count my fingers and toes. They must have been of very hardy stock. As you can see most of them lived to be extremely old, well into their 80's and 90's. We are also interested in getting more information on our Johnstons. Does anyone know anything else about them?

(Note by Bee---Please notice that Marilyn also belongs to Group XI-ABEL. But. if Bob Sloan is right, both groups had the same ancestor anyway. IF the Sarah who married Dr. Samuel Johnston is the Sarey on Micajah's Bible record, then Marilyn has two different lines from Micajah.)

(Note by Bee--For several years I have known that somewhere I had some cousins related to me not only through Pennington and Parsons, but also Kelly. My grandmother's father was a Kelly, while her mother was the Parsons-Pennington. When I worked on a KELLY genealogy in 1971, I discovered that a sister of my gr-gr-grandfather Kelly had a daughter Patience who married John C. Pennington in Lee Co., VA. And I knew that John C. was a double first cousin of my gr-grandmother Delilah Parsons, as their fathers and mothers were brother and sisters. Of course, I had not expected ever to meet one of these 'triple' cousins, but last fall one of them found me! When Esther Bruesch first wrote inquiring about PP, she told me enough that I knew she was one of them. It was great fun to write to her and give her the surprising information. I have never figured out how to add these different kinds together. Our grandparents were 2nd cousins through KELLY, and double 2nd through Pennington- Parsons! Surely that must add up to thicker blood than ordinary lnds!) These families came from Esther:

GROUP XII Samuel of Ashe Co., N.C.

Contributed by Herb Pennington, JR
 Douglassville, PA

In studying my lineage, I kept running into a dead end with Samuel's past. A
 recurring story was that he and several brothers were bound boys from England.
 But other stories I've heard say he came from Tennessee to Ashe County,
 married and raised his family.

I was not satisfied with that and started digging. The 1880 census was
 different from previous ones in that it asked the question, "where were your
 parents born?".

The children of Samuel and Elizabeth were: Stephen, Lucy, Maria, Celah,
 Claiborne Harvey, Elisha, David and Andrew. Stephen and Claiborne were living
 in Helton Township, Ashe County, N.C. on June 1, 1880. This was district 4,
 the 18th enumeration taken by "C. Pennington." It was either Claiborne or
 Cicero Pennington who took the census that year. I would venture it was Cicero
 since Claiborne is listed as C. Harvey.

Both brothers indicated Samuel was born in Virginia. He was not bound
 from England then. Was he a bound boy from Virginia? Did he go to North
 Carolina or Tennessee with a Pennington family'? His relatives? These are
 questions yet to be answered. Can you contribute any more??

 (Note from Bee--Another Pennington Cousin, Danny Miller, of Cincinnati, has
 been doing extensive research on Ashe County and has sent it for our use. I do
 not have room for it in this issue, so it will appear in the fall. He is not a
 descendant of SAMUEL, but is related to Mae Pennington and her group through

The marriage of Mr. Pennington occurred May 14, 1896, at Paris, Texas and united him with Miss Effie Smith, a daughter of R. L. Smith, a prominent merchant of Paris. Mr. Smith served as councilman for Paris for twenty-one years, was also active and prominent as a member of the Methodist Church, a strong personality and an influence for good in the community in which he resided. He passed away in September, 1912. Mrs. Pennington is a graduate of the Female College in Paris, majoring in music.

During the year 1908 the family moved to Houston, Texas, and there Mr. Pennington became associated with the Layne & Bowler Pump Company, doing an extensive business throughout Colorado, Arizona, New Mexico, Texas and Arkansas. Later the family removed to Stuttgart, Arkansas and in 1914 they came to the Santa Clara Valley, purchasing a residence at 97 Randol Avenue, an exclusive residence section of San Jose. Mr. Pennington also owns an orchard property and ninety acres near Morgan Hill devoted to the cultivation of prunes and walnuts, and is a member of the California Prune and Apricot Growers, Inc. Mr. and Mrs. Pennington are the parents of five children. On April 9, 1917, Richard L. left his studies at the College of the Pacific to enlist in the Aviation Corps, going to Angel Island and thence to Kelly Field Ground School for three months. He also received private instruction at Stinson Flying School at San Antonio, Texas. On the first of August, 1917, he reached England and became instructor of flying of the Fifty-sixth Royal Flying Corps, just fifteen miles from London. He witnessed the bombing at night of London by the enemy. At the time of the signing of the armistice he was ready to receive his promotion to captaincy, but was discharged before his promotion could take place, June 26, 1919. In partnership with E. T. Todd, he conducted a flying school at Santa Clara, which they operated for six months. He is married to Miss Emily Gould and they have a daughter, Elizabeth. At present he is interested with his father in the operation of they hydraulic well-drilling machines. Eveyln, now Mrs. Watts, has one son and resides at Burlingame; Thelma is a student at the State Normal School in San Jose; Dorothy at Notre Dame College; Rex is deceased.

While residing in Texas, Mr. Pennington in 1907 perfected his hydraulic well-drilling machine, and was actively engaged in drilling oil wells. Since coming to Santa Clara County he has made and built improvements to fit the conditions for drilling water wells in the valley and drilled over 200 wells for irrigating purposes; thus demonstrating his success in obtaining water, and has made a specialty of drilling large and deep wells by the use of the hydraulic rotary system. The business has grown so he now uses three different outfits for the drilling of deep wells, each outfit costing about \$12,000. Mr. Pennington's work here cannot be overestimated, for on plenty of water for irrigation depends the future success of the horticultural and agricultural interest of the county.

Cousin Dorothy Pollack has not been able to find any trace of this Pennington family in San Jose. She was hoping that they might have some, early family records to share with us.

THE TIMOTHY LINE

In the 1820 Indiana census, the name next to MOSES PENNINGTON (009 CRAW 211110 40101 0300) is that of PATSY PENNINGTON (009 CRAW 110000 12010 0100), always a

question as to just who she was and whether she was related to RIGGS or MOSES or both.

In Book 1, page 1, dated 26 Nov 1818, is the following will:

In the name of God Amen I Joel Pennington of the County of Harrison, Indiana Territory, being very sick and knowing that it is apointed for all men to dey and being in my proper sencies do ordain and establish this to be my last will and first I give unto my beloved wife Patsy after paying all my lawful debts and all my goods and chattels to sell and dispose of at her will for ever I farther do ordaine M H Tucker to my Exater in testamony whereof I have here unto set my hand and seal in the present of Joshua Lewis.

David B Tucker

JOEL PENNINGTON

X

This identified PATSY PENNINGTON who obviously stayed in Crawford County at least a year after her husband's death.

This 1820 reference is the one time that MOSES searchers can check him out. TIMOTHY was listed in Monroe County, Kentucky, but MOSES evidently never took out land in his own name. There is a record that RIGGS did in Crawford County, but he had left by 1820. The fact that PATSY seemed to stay near to MOSES and his family would make one believe that this JOEL may be a brother of MOSES. With RIGGS being nearby, and his later attachment to MOSES' wife ANN and her family in Illinois, the thought always plagues one as to just what the connection of RIGGS: and MOSES was, and now JOEL. Were they related on the PENNINGTON side, or were all of their wives sisters? MOSES' sons were called nephews of RIGGS--were they from the OSBORN side or perhaps even double cousins? ALLEN PENNINGTON took his family to Washington County, Texas, to see RIGGS--he was there along with Riggs' son WESLEY in the 1840 census. WESLEY had married a sister of his brother, STEPHEN O(OSBORN?)'s wife. RIGGS' wife JOANNA was an OSBORN(E)

In the 8 May 1808 MONROE COUNTY, KENTUCKY, TAX BOOK, MOSES was listed as one white man over 21, with 2 horses. He was next to RIGGS who was listed as being over 21 with one horse. JOSHUA had 150 acres. Obviously Moses did not take out a deed there. TIMOTHY was listed in BARREN COUNTY TAX LISTS as being there 8 June 1809, on Line Creek 11 June 1810 (mentioned as going to Crawford Co Indiana) still on 1812 list, 1813 and 1814 lists, and 1815. Did Timothy go with a

48

son into Illinois? Perhaps to Franklin County, as that is where Ann went first with RIGGS when she left Crawford County, Indiana to go to Illinois.

RIGGS PENNINGTON

We have spent many pages on RIGGS PENNINGTON. He was such a leader of his relatives. He was a surveyor and always went into new country ahead of his other PENNINGTON relatives.

In Crawford County, Indiana, he is on page 25 of OLD TRACT BOOK A on 16 Feb. 1816 with the Eastern half SE 80 acres and West half SE 80 acres of Township 35, Section 10, Range LW (Union). The Crawford County records had gone through a tug-of-war period while present Capital ENGLISH raided another town and brought back the records. We discovered from an old codger that there were

many buildings that had housed the old records; they had been shunted from place to place, and when the Government had built their present court house, somehow the records had been chucked--after all, they had been wet a few times, burned partially.....

RIGGS left Indiana before the census in 1820, probably in 1819 to Franklin Co., Illinois. He shows a gap between his known children; so perhaps his family followed later. As far as can be ferreted out, he must have gone into Schuyler County, Illinois around 1823, and perhaps by 1824 Ann PENNINGTON and her sons and daughter followed. He set up in McDonough County in 1825 and helped separate Knox County from Fulton County, Most of his honors have been written about in earlier issues.

These are the children of RIGGS and JOANNA OSBORNE PENNINGTON that Paul and Frankye Andres have lined up for their family sheets:

Anyone wanting information on later lines, write Paul & Frankye Andres. We researched Crawford Co., IN, Barren & Monroe Cos., KY, Harrison Co., IN, also Riggs' home county in Texas (in person).

We have given something new for seven of the nine groups in Cluster A--those missing are WILLIAM THOMAS and SIMEON. William Thomas of Whitley Co., KY and Scott Co., Tenn. is at present on the verge of joining the Micajah group. He seems a likely candidate to be one of the unknown sons of Micajah, Jr. in Harlan Co., KY. Perhaps some of the new 'unclassified ancestors' presented in the following pages will prove to be in Group XVI-SIMEON.

CLUSTER B

There are three groups named in this cluster by Bob Sloan in his study in X-2: III WILLIAM, V-REV. CHARLES, XIV-EDMUND. On page 18 in X-2 we presented the study done by Marvin Jones showing that the lineage of Group III was from WILLIAM son of PAUL of Sunbreak, Lancashire. The following is a copy of the paper carried by DANIEL, son of WILLIAM, when he came to America.

DANIEL PENNINGTON was born 8-17-1694 in Sunbreak Parish of Aldingham, Lancashire, England. At the age of 19 years he applied to Swarthmore Meeting for a certificate. It read: "To our Friends and Brethren in the province of Pennsylvania, America, Dear Friends, Daniel Pennington, a young man belonging to this meeting hath acquainted us with his desire and intentions of removing into your province. This may certify you that he was born of believing parents and hath behaved him self orderly, and hath served five years apprenticeship in the service, weaver and wool comber trade, being the term mentioned in his indentures, and he hath the consent of his parents and relations, and likewise of this meeting, for his said intended voyage; and so far as understood he is clear from any relation to marriage and of any debts. So desiring your care over him for his good every way, with the

Salutation of dear love we rest you friends and brethren. Signed in behalf of Swarthmore Montly Meeting 2nd day of 1st month 1713. "

Signed by Grandfather Paul, father William, and brothers Paul and Thomas. This was taken from a book More Micheners in America by Anna E. Shaddinger, 1970

COUSINS, be sure to let some of us know if you find that your ancestor fits into one of the groups in Cluster B--William, Charles, or Edmund.

CLUSTER C

Please remember when you are reading about placing these different groups into a cluster, that the basis used by Bob Sloan for this was the fact that these people seemed to have moved or migrated to the same place. Originally Bob made up Cluster C from only 3 groups: II-ROBERT of Centre Co., PA; VIII-ABRAHAIM, ISAAC, JACOB; IX-JOHN of MD. At this writing, he believes that XIX-RICHARD of W.VA. and XXI-Delaware colonists should be added, making 5 groups in the cluster.

One of our members sent the following, MD-DEL data, and cannot receive the credit for same, as the name has been separated from the manuscript. It is much appreciated anyway.

The following HENRY PENNINGTONS probably hold the key to a lot of Maryland and Delaware families. More research on land records is needed, however. One Henry that was previously listed in PP must be removed from MD list, for this reason: The Henry Pennington, transported in 1663, came to Somerset County from Virginia. He is the son of Henry Peddington and wife Mary (later Mrs. Ambrose Dixon) of Accomack Co., VA. We have been quoting Clayton Torrence, "Old Somerset on the Eastern Shore of Maryland" (Baltimore 1966, originally published in 1935). He says "The references given... refer to volume and page. . . ." (pp. 473-4) "March 10, 1663 Henry Pennington (6:255)" (p.475) He also says on page 575 that "the following persons were entitled to 50 acres each for coming into Maryland to settle: March 10, 1663-Ambrose Dixon for Phillip Adams and Henry Pennington". You will notice the date is the same. The 1663 Pennington had a son Henry who had two daughters -Eleanor married a Mr. Welch and Elizabeth married John Hall.

HENRY PENNINGTONS IN MARYLAND

There are unidentifiable Henry Penningtons in both MD and Del. Here we have Henry (servant) came 1650/51; Henry transported 1665; Henry immigrated 1667.

In 1671 a HENRY (wife Eliza) bought land on the Sassafrass in Cecil Co., MD and

called it "Happy Harbour".

In 1667 a Henry Pennington was listed as a Planter living on St. Jerome's Creek

in St. Michael's Hundred, St. Maries Co. and St. Mary's records list a Henry in 1679 as "late of Cecil County".

In Delaware we have a Henry Pennington on the Manor of Worminghurst in Sussex in 1683. He left a will in 1708 which included Elizabeth Newell, daughter of John and Mary Newell.

A HENRY PENNINGTON (wife Deborah) died in Sussex Co., Del., leaving a will dated March 30, 1713 and naming a daughter Mary Nuel (Newell).

Then there is a HENRY PENNINGTON (wife Rachel) listed in St. Mary's County in 1662. Is this the 1650/51 servant?? ?

Here is a list of 13 early PENNINGTONS in VA, MD and NJ

Our new Cousin Merle Price very definitely belongs to Group XXI-Delaware. He found us last winter through Patricia Hogge (and we do thank her). Last year Merle was in New Castle Co., Del., took many pictures and copied headstones. He wishes to correspond with anyone who is interested in that area. We do not seem to have any new material for this issue from the other groups
in Cluster C---perhaps we will have in the fall issue. BH

SINGLES---NOT IN CLUSTERS

We have four groups that Bob Sloan finds not closely connected with any
others, by reason of their location or migration. These are X-Thomas of Surry
Co., VA; XVII-James of Minnesota; XX-Nathaniel; XVIII-Sir Isaac descendants.
Group X people are well known to us, and numerous. DENNIS PENNINGTON, a
descendant of Thomas, went to Indiana and became very prominent there. His
descendants have a well organized Pennington Family Association, and have had
for years. Mrs. Modell Satori of Louisville, has been their president for
several years, and the family which follows belongs to her. Modell and husband
have recently moved to the old home town of Corydon, IN. The long study which
follows hers was done by James A. Pennington, with the help of Lillian Stamps
and Bob Sloan.

GROUP X - THOMAS PENNINGTON OF SURRY AND SUSSEX COUNTIES, VIRGINIA
 Introductory Discussion by BOB SLOAN

All the Penningtons of Southeastern Virginia and Northeastern North Carolina before 1800 are descended from a single pair of ancestors, Thomas and Sarah George Lewis Pennington of Surry Co., Va. Thomas' father was probably Edward. Their descendants moved southwest into Sussex, Dinwiddie, Brunswick and Mecklenburg Counties, Va., and Halifax, Bertie, Anson, Wake and Montgomery Counties, N.C. before spreading west and dispersing.

John Hensell in PP X-1 p. 31-38 suggested a connection of Thomas to Edward and his father Henry of Accomack Co., Va. across Chesapeake Bay, and further connected that pair directly with the London and Essex Penningtons. I find no evidence to validate these connections. Lillian Stamps discovered an Edward much closer in time and space (although not of recent noble ancestry) to Thomas who died in 1703.

Nathaniel Bacon came to Virginia about 1650 and settled at King's Creek in York County. He brought with him as a servant one Edward Pennington on board the ship Planter's Adventure, Captain Ranson commanding. He then moved to Isle of Wight Co., across the peninsula and the James River where the father of Sarah George lived. When Thomas married the widow Sarah George Lewis, they moved to Surry County.

The only other early Pennington known in these parts was Charles Piddington who witnessed a deed in Isle of Wight County in April 1700. This land was sold by a brother-in-law of Sarah George Lewis Pennington. Charles thus may have been a brother of Thomas.

James A. Pennington has organized the early data on Group X in table form in the pages which follow. With the help of Lillian Stamps I have drawn a map showing all the places where Group X Penningtons were known to be before 1800.

NC in the 1790 census: I would imagine that Abby would be the widowed mother of William.
